

John Bell Presents

Diversion

Creating Sacred Spaces Community Church Congregational

July 29 - 31, 2011

John Bell of the Iona Community has a gift for uniting voices in simple harmonies from all over the world. Through his music and teaching, he will help us create a sacred meeting ground where God can enter more fully into our lives.

How

The weekend begins at 6:00 Friday night with dinner upstairs. On Saturday, we will provide a continental breakfast and lunch. Saturday's program begins at 10:00 and ends at 3:30 leaving plenty of time for beach adventure. Dinner is on your own. Sunday is our worship at 10:00 with John Bell leading music.

Where

Our meeting space is Community Church in Corona del Mar. It is an elegant New England style church with a beautiful meeting space upstairs. There is a lift. The church will be open for prayer during the event. We are a 15 minute walk from the beach.

What

Creating Sacred Spaces Retreat draws upon experiences of faithful people from the past and the present, from all over the world, who made room to meet God and enter into the life giving work of Jesus. We will apply to our lives the techniques used for centuries of creating sacred space. Join us as we meet God through music, discussion, and meditation.
